ENERGY-INST.ORG/CORPORATE-MEMBER

Position yourselves at the heart of the energy transition

Through EI Corporate Membership, align your organisation as a Company Member, Technical Company Member, or Technical Partner.

You will unlock unparalleled access to advancing technical excellence, innovation and professional standards across the energy system.

Begin a collaboration that strengthens your organisation's capability, credibility and connections while supporting a just, secure and affordable energy future.

Corporate membership packages

Company Membership

Company membership provides you with a platform for showcasing your organisational achievements and commitments to the sector and society, whilst upskilling and developing your employees. Company membership falls into 5 bands, based on the number of your employees working in an energy role.

Technical Partners:

Our highest grade of EI Corporate Membership. We work closely with around 50 Technical Partners; including many of the world's largest integrated energy companies, national energy companies, downstream, upstream, and renewable companies – all of whom demonstrate industry leadership through their contribution to the EI's Technical + Innovation work programme.

Increase your visibility

Raise your profile amongst global energy leaders

As an EI Corporate Member, you'll place your organisation amongst a global community of respected energy leaders, increasing your visibility and demonstrating your commitment to professional standards and the future of the energy workforce.

All Corporate Members receive:

Enhanced credibility through alignment with over 200 leading global energy companies

Greater visibility through inclusion in the [EI Corporate Member Directory](#)

Stronger brand presence with a personalised corporate logo

Formal recognition via a Corporate Membership Certificate

Wider reach through **discounted EI advertising**

Opportunities to engage and develop through our **countless member offerings** (explore these on the following pages)

Strengthen technical capability and knowledge

The EI provides a trusted platform, the Technical + Innovation programme for technical collaboration across the full energy system.

Company Members receive:

Access to trusted knowledge, capability, and cost savings

- ✓ **20% savings** on globally recognised **guidance and standards, training and events**
- ✓ **Up-to-date technical knowledge** that supports safer, more efficient, and future-ready operations
- ✓ **Access to 100+ years** of industry knowledge and experience

Technical Company Members also receive:

Deeper technical insight, influence, and collaboration

- ✓ **Tailored technical insights** through niche good practice guidance
- ✓ **The opportunity to shape technical guidance** by working with peer organisations and joining specialist committees
- ✓ **Enhanced knowledge sharing and networking** in niche research initiatives and working groups

Technical Partners also receive:

Leadership, strategic influence, and global reach

- ✓ **Leadership in best practice** by contributing to globally recognised **guidance**
- ✓ **Unlimited global access** to guidance supporting industry operations
- ✓ **Strategic influence through setting the direction of relevant** Scientific Technical Advisory Committees (STAC)
- ✓ **Cross sector knowledge-sharing** across energy technologies

Shaping the energy workforce of the future

Accelerate your organisation's impact in the energy transition through the Energy Institute (EI).

The energy transition demands skilled people, trusted knowledge, and strong professional standards to deliver low-carbon energy that is secure, affordable, and accessible for all.

The Energy Institute is the chartered professional membership body for everyone working across the energy system. As a charity incorporated by Royal Charter, we bring together expertise, evidence, and professional integrity to shape the workforce the transition requires.

By joining the EI, your organisation becomes part of a global, interdisciplinary community of energy professionals united by a shared purpose. You'll join a diverse and influential network of Corporate Members, spanning global energy companies, specialist consultancies, utilities, retailers, and professional services organisations.

Partner with the Energy Institute to help lead a just, secure, and affordable energy future.
